AQUAMOR™ MULCH

PRODUCT CODE - ESAM

FAST FACTS

- ← Smart Approved WaterMark and Water Corporation Waterwise accredited
- ← Chunky mulch which significantly reduces evaporative water loss
- ← Minimum 5 year life. Significant cost savings over extended periods
- ← Significantly reduces weed establishment
- ← Fully composted, pasteurised and screened – free of weeds and pathogens
- ← Ideal for windy coastal locations
- ← Retains structure in harsh conditions

PRODUCT SPECIFICATIONS

- ← AS4454 Compliant
- ← Pathogen free, dieback tested
- ← Particle size: < 3% passing 16mm screen
- ← Less than 1% non-organic material
- ← 100% recycled organic content

APPLICATION

- ← Use where long-lasting mulch (with 5-year design life) is needed to reduce evaporation, suppress weed growth, while allowing rainfall and irrigation to rapidly infiltrate to soil.

HOW TO USE

1. Apply adequate weed control in advance
2. Water soil before applying Aquamor™ Mulch.
3. Apply evenly to ground at more than 75mm depth.
4. Install to 100mm to achieve weed control while still allowing infiltration.
5. Do not compact.
