

BOUTIQUE MULCH

PRODUCT CODE - ESBM

FAST FACTS

- ← Best used in high amenity sites where a visually attractive product is required
- ← Minimum 3 year life. Cost savings over extended periods
- ← Significantly reduces weed establishment
- ← Less water usage due to reduction in evaporation
- ← Fully composted, pasteurised and screened - free of weeds and pathogens
- ← Ideal for windy coastal conditions

PRODUCT SPECIFICATIONS

- ← AS4454 Compliant
- ← Pathogen free, dieback tested
- ← Particle size grading of screened product:
 - ← Less than 3% retained on 16mm screen
 - ← Less than 3% passing 10mm screen
- ← Less than 1% non-organic material
- ← 100% recycled organic matter content

APPLICATION

- ← Use Boutique Mulch in high visual amenity areas to minimise maintenance, reduce evaporation, suppress weeds, while allowing rainfall and irrigation to infiltrate to soil below.

HOW TO USE

1. Ensure adequate weed control is completed.
2. Water soil before applying Boutique Mulch.
3. Apply evenly to ground at minimum 75mm depth.
