

BLOWABLE AQUAMOR MULCH

PRODUCT CODE - ESBAM

FAST FACTS

- ← Smart Approved WaterMark and Water Corporation Waterwise accredited
- ← Best used in high amenity sites where a visually attractive product is required
- ← Minimum 5 year life. Cost savings over extended periods
- ← Significantly reduces weed establishment
- ← Less water usage due to reduction in evaporation
- ← Fully composted, pasteurised and screened - free of weeds and pathogens
- ← Can be spread by blower truck if required

PRODUCT SPECIFICATIONS

- ← AS4454 Compliant
- ← Pathogen free, dieback tested
- ← Less than 1% non-organic material
- ← 100% recycled organic matter content

APPLICATION

- ← Use Blowable Aquamor Mulch where a high quality mulch is required that can be applied by blower truck. Will suppress weeds, while allowing rainfall and irrigation to infiltrate to soil below.

HOW TO USE

1. Can be spread by blower truck, though not essential.
2. Apply adequate weed control in advance.
3. Install to 100mm to achieve weed control while still allowing infiltration.
