

WOODLAND MULCH

PRODUCT CODE - ESWM

FAST FACTS

- ← Reduces evaporation from soil.
- ← Ideal for new development areas.
- ← Reduces weed establishment.
- ← Fully composted, AS4454 Compliant.

PRODUCT SPECIFICATIONS

- ← AS4454 Compliant.
- ← Pathogen free, dieback tested.
- ← 100% recycled organic content.

APPLICATION

- ← Use Woodland Mulch in new development areas to minimise maintenance, reduce evaporation, suppress weeds, while allowing rainfall and irrigation to rapidly infiltrate to soil.

HOW TO USE

1. Ensure adequate weed control is completed.
2. Apply soil wetter and water soil well before applying.
3. Apply evenly to ground at 75mm-100mm depth to achieve weed control while still allowing infiltration.
